

Why Invest in USA

It may sound strange, but in reality the world can sustain and afford only one USA as a crazy consumer marketplace.

- 1) 300 million USA consumers have the buying power and consumer habit which is more than the 3 billion consumers of the world.
- 2) USA consumes 25% of the world energy.
- 3) USA is a big country with three different time zones, over 3000 miles east to west.
- 4) USA has different weather and geography but same English language everywhere.

Law and Order:

- 1) The country with population originating from almost every place on earth having different culture, religion, food habit, etc....is governed by LAW.
- 2) General population enjoys the protection of LAW in every aspect of life.
- 3) The Government workers, whose salary is paid by the Tax from the population, maintain utmost respect in dealing with the population. This is one place you will observe Government employees using polite language in dealing with the people.
- 4) In ordinary people's life nepotism is almost non-existent.

Opportunity:

1. Things are always beginning and happening here.
2. Ideas from all over the world come here to make it a reality.
3. Entire world is eager to sell to this market place.
4. New ideas and new products are always replacing the old.
5. There is a saying, "if you can't make it in USA, you can't make it anywhere else"

Support:

1. Capital, along with venture capital is always looking for new product and service to finance.
2. If you can visualize, prototype, and prove a financially viable system, the Capital knocks your door, you do not need to ask for it.
3. All regulations are to help you and protect your venture.
4. Hard working work force with high level of work ethics.
5. Institutions produce learned specialized workers.

Culture:

1. 80% of the USA population for rest and recreation use hotels and restaurant.
2. On average people move every five years for job, better life, change of life, etc reasons. This creates business for Hotels and Restaurants.
